HOW to ORDER

07 32661200

PO Box 33, Virginia QLD 4014

info@plasticsaust.com.au

Freight

All prices stated are exclusive of freight. Delivery charges will be added relevant to the items ordered and your nominated delivery location. You may nominate a carrier of your choice at the time of ordering.

For customers requiring delivery within the Brisbane metropolitan area, orders that exceed $150 (ex GST) will be delivered free of charge.

Pricing

All prices outlined in our catalogue are exclusive of GST.

Unless otherwise stated, prices are per "each" with minimum order quantities applying to many lines. Prices are subject to variation without notice. Although at the time of printing all items were available, some items may not be available due to unforeseen circumstances. You will be advised of any delays to shipping times outside normal delivery timeframes.

Account Applications

Where regular purchases exceed $500 ex GST per month, you may apply for a credit account with Plastics Australia. Account applications can be made on the enclosed application form and are subject to approval by our finance department. Our Terms and Conditions of Trade should be read in conjunction with your application.

The Fantastic Plastics People™

A4 Double Duty™ PVC Insert Binders

Commercial Grade Binders for Business - Made in Australia
Made from 60% Recycled White PVC & 100% Recycled Board
All Binders have full clear pocket outside Front, Back and Spine

Better Because:

1. Thicker PVC - 50% thicker than standard imported binders
2. Recycled PVC & Recycled Cardboard - no reduction in performance but huge benefit in sustainability
3. Generous 1/2 clear pocket inside the binder - 150mm high
4. Our binders are **Phthalate free** - safer for you and for the environment

Measuring a binder
Binder size always refers to the **capacity** of the ring metal holding the paper
A = Ring Metal Capacity
B = width of the spine of the binder
For example a 25 mm binder A = 25 mm and B = approximately 40 mm

600R3E

600D2E

601D4E

O - SHAPE RING   16mm

16mm capacity ring metal, 80 leaves of 80gsm paper (approx).

610LARCH	2						

Note :

1. Doubleduty™ Recycled PVC Binders are available in White only
2. For a business card pocket welded to the binder add $1.15 per binder. For a double business card add $1.65
3. For a CD pocket welded to the binder add $1.90. For a two pocket USB / memory stick holder add $3.80
4. All binders have a 150mm high, horizontal clear pocket inside the front cover, back cover and spine
5. All binders have a full clear pocket on the outiside front cover, back cover and spine (top opening)
6. Paper capacity based on 40 leaves of papers for every 5mm of ring capacity with an allowance made for indices/dividers.

A5 Doubleduty

1. Binders feature a full clear pocket outisde front, back and spine and 1/2 clear pocket inside front, back and spine
2. Trim sizes for the both 20 mm and 25mm binders are front cover 220 x 188mm, back cover 220 x 167mm and spine 220 x 29mm. The back cover is a different width to the front cover to ensure the insert sheet clears the rivets securing the ring fitting

A3 Doubleduty

1. Please note minimum order quantities
2. Minimum order value $100 or 1 box for stock sizes
3. MTO - Made to order. For made to order sizes the minimum order quantity is 20
4. Binders feature a clear pocket outisde front, back and spine and 1/2 clear pocket inside front, back and spine
5. All colours other than white - prices as per tables but minimum order quantity is 20

A4 with Printed Cards Sealed

1. Minimum order qty for the above prices is 50
2. For a business card pocket welded to the binder add $1.15 per binder. For a double business card add $1.65
3. For a CD pocket welded to the binder add $1.90. For a two pocket USB / memory stick holder add $3.80
4. Price is based upon client supplied cards trimmed to size. Minimum card weight is 200gsm. Card printing can be arranged if required
5. All binders have a 1/2 clear pocket inside the front, back and spine.
6. For cards sealed under clear on front, **back** and spine, add $0.75 per binder to above prices
7. White binders can be made using Double Duty 60% recycled white PVC - the sustainable option

SUSTAINABILITY

If 'green' is one of your core values, or if you just seriously care about our environment, you've come to the right place.
The "fantastic plastics people" are committed to sustainability - and that means more than simply recycling. Our products are built to last and with product ranges made from recycled PVC and polypropylene, we've long enjoyed good 'green' credentials.

QUALITY

At Plastics Australia we believe that quality is 'built in' rather than 'inspected out'. We implemented our Quality Management System in 1994, and it's the back bone of our operation.

INNOVATION

Most of our products are designed and manufactured right here in our Brisbane factory, but we also search the globe to bring you the most cutting edge plastic stationery products from around the world.
We can deliver a vast range of standard products at a moments notice, or we can custom design and manufacture (amazing) products to meet your specific requirements.

A4 Flaplock Binders - Polyprop

Flaplock Binders are a registered design by Plastics Australia
Flaplock Binders are manufactured in Australia using polyprop manufactured in Australia
Recycled poly can have colour variations because of the method of manufacture
Flaplock Binders made from Natural poly have a spine pocket - Those made with
Recycled poly do not have a spine pocket

Keba Ergo Binder Range

The Best Binders because :
1. Crush proof spine - that also allows the binder to be held securely when open
2. Polyprop hinges on cover guaranteed for over 2 000 000 cycles
3. Unique ring fitting design - means the ring metal is never mis-aligned
4. Trigger release mechanism on the ring fitting means the fittings stays shut even if the binder is dropped
5. Extremely tough and durable - made from 3mm thick moulded polyprop
6. Finger Grips integrated into the spine make retrieval easy
7. The Ergo binders stand up unsupported on a shelf or desk when full of paper

Keba Warranty

All Keba Binders Carry a 2 year warranty for faulty workmanship

SUSTAINABILITY

If 'green' is one of your core values, or if you just seriously care about our environment, you've come to the right place.
The "fantastic plastics people" are committed to sustainability - and that means more than simply recycling. Our products are built to last and with product ranges made from recycled PVC and polypropylene, we've long enjoyed good 'green' credentials.

QUALITY

At Plastics Australia we believe that quality is 'built in' rather than 'inspected out'. We implemented our Quality Management System in 1994, and it's the back bone of our operation.

INNOVATION

Most of our products are designed and manufactured right here in our Brisbane factory, but we also search the globe to bring you the most cutting edge plastic stationery products from around the world.
We can deliver a vast range of standard products at a moments notice, or we can custom design and manufacture (amazing) products to meet your specific requirements.

Note :

Ufold Brochure Holders - Desk and Wall Mount

1. Ufold brochure holders are a registered design by Plastics Australia
2. Ufold brochure holders are also available made from 100% recycled Calico polyprop
3. Where the size is described as A4+ this means the back of the brochure holder is taller to allow for printing of logo's etc...
4. Where the description says "A6+A4 pocket" this indicates it is an A6 brochure holder with clear pkt to suit an A4 sheet
5. DL size paper = 210 x 99mm
6. A6 size paper = 148 x 105mm
7. All Ufold products are supplied flat
8. Fold down flat after use for easy storage

SUSTAINABILITY

If 'green' is one of your core values, or if you just seriously care about our environment, you've come to the right place.

The "fantastic plastics people" are committed to sustainability - and that means more than simply recycling. Our products are built to last and with product ranges made from recycled PVC and polypropylene, we've long enjoyed good 'green' credentials.

QUALITY

At Plastics Australia we believe that quality is 'built in' rather than 'inspected out'. We implemented our Quality Management System in 1994, and it's the back bone of our operation.

INNOVATION

Most of our products are designed and manufactured right here in our Brisbane factory, but we also search the globe to bring you the most cutting edge plastic stationery products from around the world.

We can deliver a vast range of standard products at a moments notice, or we can custom design and manufacture (amazing) products to meet your specific requirements.

Mousemats

Below are 9 reasons why " The Plastics Australia Mouse mat" fits the bill : These are

1. The top surface cannot peel away from the base, it's thermo sealed
2. The mat is thin (approximately 2mm)
3. The mat will not slip on the desk surface when is use
4. The mat surface is tough and durable - won't easily scratch
5. The mat surface is designed to suit all mouse types
6. The mat surface makes it easy to slide the mouse around
7. The mat edges are not sharp
8. Personalising the mouse mat is easy. We seal printed cards into our mouse mats between the special hard top surface and the soft non slip base. This ensures the print is not damaged during the life of the mouse mat. The printed cards can be supplied by you or we can arrange for them to be printed for you (or we can print for you if required)
9. Being plastic our mat can be easily cleaned. Most stains can be wiped off with a wet cloth

RECTANGULAR MOUSEMAT

Rectangular Mousemat with card sealed under clear
Minimum card weight 250 gsm
Trim size for cards 201 x 231 mm
Overall size of the mouse mat = 205 x 235mm
